Alison Johnson, RN.,
who for 24 years has
committed her career
to assisting seniors to
safely remain in their
homes.**

Automatic Monitored Pill Dispenser

Right Pill, Right Dose, Right Time

Our goal has always been to keep people safe and independent as long as possible. Our Medication Dispenser system is critical to getting individuals the right dose, at the right time, with fewer worries about:

Deluxe MedReady Monitored Pill Dispenser - *\$34.95 per month*

While the Pill Dispenser / Medication Dispenser Unit runs on A/C power for convenience, a battery backup is included so you won't miss a dose do to a power outage.

You can take the Pill Dispenser / Medication Dispenser Unit with you when you travel.

Pill Dispenser / Medication Dispenser Security

The Medication Dispenser Unit is a secure, locked, tamper-proof way to store medication. A real lock and key system is used in our medication dispenser, instead of a latch, and the edges are secure to resist prying.

With access by key only, if desired, a caregiver can load the system and monitor medication compliance.

VRI Pill Dispenser / Medication Dispenser comes with Easy-To-Use Digital Clock

VRI Pill Dispenser / Medication Dispenser extra large digital clock is easy to see from any angle and bright enough to be seen easily at night. The pill dispenser / medication dispenser alarms are as easy to set as an alarm clock.

The unit dispenses 28 doses before needing to be refilled. A caregiver can refill once a week if 4 doses a day are dispensed, every two weeks for 2 doses a day or once every 28 days for once a day dispensing.
